Breast Augmentation

Breast augmentation is one of the most popular cosmetic surgery procedures in the world. In this issue, we discuss the latest techniques for breast augmentation, including:

- Implant-based augmentation

- Fat grafting
- Stem cell augmentation

We also discuss the risks and benefits of breast augmentation, and how to choose the right surgeon for you.

Liposuction

Liposuction is another popular cosmetic surgery procedure. It can be used to remove unwanted fat from the abdomen, thighs, buttocks, and other areas of the body. In this issue, we discuss the latest techniques for liposuction, including:

- Tumescent liposuction
- Ultrasonic liposuction
- Laser liposuction

We also discuss the risks and benefits of liposuction, and how to choose the right surgeon for you.

Facial Rejuvenation

Facial rejuvenation is a broad term that refers to a variety of cosmetic surgery procedures that can be used to improve the appearance of the face. In this issue, we discuss the latest techniques for facial rejuvenation, including:

- Facelift

- Brow lift
- Eyelid surgery
- Rhinoplasty
- Chin augmentation

We also discuss the risks and benefits of facial rejuvenation, and how to choose the right surgeon for you.

Body Contouring

Body contouring is a type of cosmetic surgery that can be used to improve the shape and appearance of the body. In this issue, we discuss the latest techniques for body contouring, including:

- Tummy tuck
- Liposuction
- Body lift
- Buttock augmentation
- Thigh lift

We also discuss the risks and benefits of body contouring, and how to choose the right surgeon for you.

Current Concepts: An Issue of Clinics in Plastic Surgery is a valuable resource for anyone considering cosmetic or reconstructive surgery. This issue provides the latest information on the most cutting-edge techniques, and helps you make informed decisions about your surgery.
