In his groundbreaking book, *Don't Wait for the Next War*, Robert Kagan argues that the United States must abandon its current foreign policy of isolationism and unilateralism and instead embrace a new strategy of global engagement. Kagan argues that the United States is the world's only superpower and that it has a responsibility to use its power to promote democracy and human rights around the world. He also argues that the United States must be prepared to use military force to defend its interests and those of its allies.
