### **Excerpt from Rebels 2009-2024**

"The Occupy Wall Street movement was a watershed moment in American history. It was the first time in a generation that a mass movement had taken to the streets to protest economic inequality. The movement was sparked by the financial crisis of 2008, which left millions of Americans unemployed and struggling to make ends meet. The protesters occupied public spaces in cities across the country, demanding that the government take action to address the crisis.

The Occupy Wall Street movement was met with a mix of support and opposition. Some people praised the protesters for speaking out against the greed and corruption of Wall Street. Others criticized the movement for being disruptive and for not having a clear agenda. Despite the criticism, the Occupy Wall Street movement helped to raise awareness of the issue of economic inequality and inspired other movements around the world.
