Quotas are a form of affirmative action that reserve a certain number of seats in elected bodies for women. They have been adopted in over 100 countries, and have been shown to increase the number of women in politics.

This book brings together leading scholars from around the world to examine the effects of women's quotas on a variety of outcomes, including:

- The number of women in elected office

- The quality of representation
- The policies that are enacted
- Public attitudes towards women in politics

This book is a valuable resource for scholars, policymakers, and activists working to promote women's political participation.
